

## 2110 MANPACK BACKPACKS

### FEATURES AT A GLANCE

- **Lightweight, durable & comfortable backpacks for long missions**
- **Ample storage space in a compact design**

Codan offers backpacks for our 2110 series Transceivers that are designed for durability, comfort, easy portability and ample storage for communications on the move.

### SOFTPACKS

The softpack is an ultra lightweight and compact backpack for the 2110 Transceiver. Two 4 litre side pockets and one 3.5 litre bottom pocket ensures that the Transceiver and all accessories are contained in a neat and highly functional backpack, while still allowing room for personal items.

Consists of a comfortable harness with internal bracing, hip belt and sternum strap.

Material:	Cordura
Standard colour:	Black
Weight:	1.23 kg (2.71 lbs)

### EXTERNAL FRAME

The external frame is a heavy duty backpack with adjustable semi-flexible contoured external frame as preferred by various professional and government organisations. Its modular design allows for additional loads of up to 50 kg to be attached.

Two 5 litre side pockets and one 3 litre bottom pocket for accessories and storage. Includes a front pocket to hold an A4 size folder and the Getting Started Guide.

Ergonomic shoulder harness with ventilation panel ensures maximum comfort even during long treks.

Material:	1000 Denier bulked filament nylon, and co-polymer frame
Standard colours:	Black
Weight:	4.3 kg (9.48 lbs)
